

# Bead Star Ornament

by Susan Phillips

## Materials

- Seed beads: gold, silver or crystal rocaille
- Tube beads in matching colours
- Beading needle
- Fine nylon or silver or gold thread
- "Crazy" or Zap-a-gap glue

## Instructions

1. Thread a seed bead, then a tube then a seed, then a tube and so on until you have made a triangle.
2. Pass the thread again through seed bead # 1; pull to create the first triangle.
3. Thread on a tube bead and then a seed and a tube and so on, until you have enough for a second triangle, and pass thread through seed bead # 1. Use a tiny drop of glue to hold this triangle in place.
4. Create two more pair of triangles in this manner for the 6-pointed star (one pair and a singleton for the 5 pointed star). Join the triangle pairs together at the points, anchoring with a dot of glue. Add a loop or a small split ring to hang the star with.
